

SmartMyer Valve Controlling Manipulator

Valve Controlling Manipulator

This product, manufactured specially for installation to the gas alarm, is applicable to a variety of gas alarms. The engineering agency provides the technical scheme for adaption of the manipulator. This product is also applicable to automatic control of other gas or fluid valves.

- Torque:30~60Kg.cm
- Automatic Valve-closing time:5~10 seconds
Electric valve-opening time: 5~10 seconds
- Rated voltage : DC 12V
- Rated current: 100mA
- Valve pressure: 1.6Mpa
- Valve specifications: 1 inch, 1.25 inch, 1.5 inch
- Anti-electromagnetic-interference, no-spark design.
- With auto-manual shift clutch.
